ABOUT INANGS

Inangs is a privately owned South African cut-make-trim (CMT) manufacturing company established in 2015. The business has grown from an initial base of six sewing machines into a scalable production facility with the capacity to produce up to 10 000 units per week, demonstrating steady operational expansion and resilience over time. Headquartered in Ladysmith, KwaZulu-Natal, Inangs plays a vital role in the local clothing and textile value chain, contributing meaningfully to job creation and regional economic development. The company specialises in high-volume garment manufacturing, with operations designed for continuous production runs and long-term contracts. Inangs is recognised for its ability to produce technically complex garments, particularly microfibre products, which require specialised handling and offer enhanced performance benefits such as durability and quick-drying properties.

OUR VISION

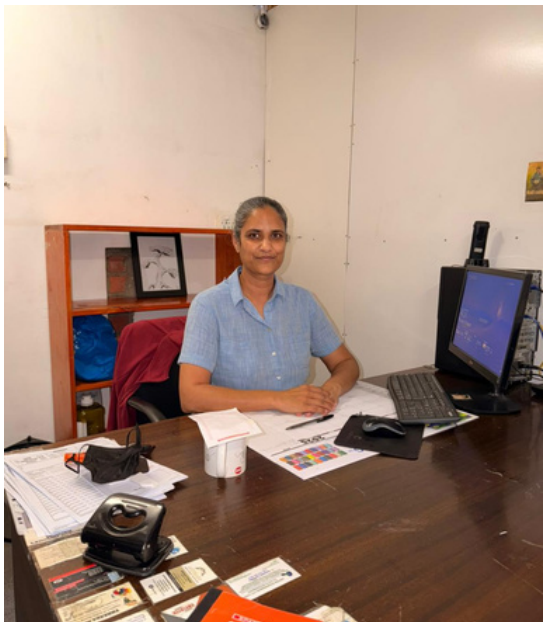
To become a leading and trusted high-volume garment manufacturing partner in South Africa, recognised for quality, reliability, innovation, and contribution to sustainable local industrial growth.

OUR MISSION

To deliver high-quality, large-scale garment manufacturing solutions through efficient processes, skilled workforce development, and strategic partnerships, while driving economic empowerment and operational excellence.

ABOUT THE OWNER

Inangs is led by Yogini Lorenzo, an experienced entrepreneur with a deep understanding of garment manufacturing operations and the broader clothing and textile industry. She has played a pivotal role in growing the business from a small operation into a scalable manufacturing facility, demonstrating resilience and adaptability in navigating industry challenges, particularly during and after the COVID-19 period. Yogini has been instrumental in establishing key client relationships, overseeing production operations, and ensuring the business remains operational under constrained conditions. She is actively involved in strategic planning, stakeholder engagement, and business development, while also contributing to day-to-day operations. Her hands-on leadership approach reflects a strong commitment to the company's growth, sustainability, and long-term positioning within the local manufacturing sector.



> Success is built through resilience, adaptability, and hands-on leadership, turning challenges into opportunities while nurturing relationships, driving growth, and ensuring sustainability within an ever-evolving manufacturing and textile industry landscape.

CUT-MAKE-TRIM MANUFACTURING

Inangs provides high-volume cut-make-trim manufacturing services, transforming client-supplied materials into finished garments through efficient production processes designed for large-scale, continuous production runs with consistent quality standards.

SAMPLE DEVELOPMENT

The company develops seal and pre-production samples based on client specifications, ensuring accuracy, quality assurance, and alignment before bulk manufacturing commences to minimise errors and production risks.

BULK PRODUCTION

Inangs specialises in large-scale garment production, delivering consistent, high-volume outputs across various product categories while maintaining production efficiency, quality control, and timely delivery for clients.

FINISHING AND PACKAGING

The company offers comprehensive finishing services including cleaning, ironing, quality checking, and professional packaging to ensure garments meet client standards before dispatch and delivery.

WORKWEAR AND UNIFORM SUPPLY

Inangs manufactures durable workwear and uniforms tailored for corporate, institutional, and industrial clients, focusing on quality, comfort, and functionality suited for daily operational use.

WHY CHOOSE US

Inangs offers reliable, high-volume production backed by a skilled, predominantly women-led workforce, reflecting both expertise and a commitment to inclusive growth. The company stands out for its specialised microfibre manufacturing, producing high-quality, technically advanced garments to precise standards. With strong quality control and efficient operations, Inangs consistently delivers on time while handling complex production needs. By focusing on long-term partnerships, clear communication, and continuous improvement, Inangs remains a dependable choice for retailers, corporates, and institutional clients seeking scalable, locally manufactured solutions.

NOTABLE CUSTOMERS

Inangs has established working relationships with a number of recognised clients within the South African clothing and textile sector. These include leading retail and manufacturing partners who trust the company's ability to deliver consistent, high-volume production.

Key customers include:

- PEP Stores – Successful trial orders completed, with ongoing engagement for potential large-scale supply opportunities.
- Durban Overalls – A strategic manufacturing partner that outsources excess production work to Inangs.

Inangs continues to engage with major national retailers such as Ackermans, Mr Price, Pick n Pay Clothing, Truworths, and Woolworths as part of its growth strategy to secure long-term, high-volume contracts.
